

Lavante has revolutionized the way recovery processes can be structured. Through the development and use of new technologies, an enterprise can use our Recovery cloud software to create a comprehensive ongoing internal statement review process.

With minimal internal labor, our Recovery cloud software will not only allow you to automate statement reviews with real time root cause analysis, but it will also automate regulatory compliance, perform comprehensive supplier risk analysis, and allow you to perform continuous vendor master file cleansing.

Statement Recovery Analysis

Audit All Your Suppliers Versus Sampling	<ul style="list-style-type: none"> • 3X to 5X the number of credit claims • Recover an additional 25% cash
